Hi David - these will be USGS/NASA, so there will be a cooperator logo included in the intro/exit clips.

Thanks!

One question — will these be branded as USGS videos, or as USGS/NASA? Thanks!

Good morning,

The LP DAAC would like to create two new video series: a data visualization series and a How-to video series.

Form DI551 is attached in a single file for both series. Responses to the supplementary questions for each series are attached as separate documents.

Please let me know if you have any questions or need additional information.

Thank you,
Lindsey Harriman
