

2024 Minnesota: PIPE 24 UNITS 3, 4

mn4401509632620240424

Latitude: 44° 00' 50.4"
 Longitude: -96° 19' 30.0"
 Fire Ignition Date: April 24, 2024
 Assessment Type: Initial
 Pre-Fire Image Date: April 21, 2024 (S2B)
 Post-Fire Image Date: May 03, 2024 (S2A)

| Acreage of Burn Severity | |
|---------------------------|------------|
| Burn Severity | Acres |
| Unburned to Low | 9 |
| Low | 351 |
| Moderate | 0 |
| High | 0 |
| Increased Greenness | 0 |
| Non-Processing Area Mask* | 0 |
| Total | 360 |

This map portrays fire severity for the fire specified in the map title and summarizes proportions of fire severity classes. These data are produced under the National Burn Severity Mapping Project (NBSMP) jointly implemented by the USGS EROS and the NPS. The NBSMP ascertains the locations of fires based upon special requests from NPS staff members. The NBSMP reserves the right to correct, update or modify geospatial inputs to this map without notification.

* Areas in either the pre-fire or post-fire reflectance imagery containing clouds, snow, shadows, smoke, significantly sized water bodies, missing lines of image data, etc.
